I'm a UX/UI designer passionate about building clear, user-friendly web experiences. I create full design solutions — from wireframes to final responsive UI, with a strong focus on clarity, visual harmony, and alignment with the brand and user needs. I collaborate closely with developers, marketing teams, and designers to deliver consistent, high-quality results.

Experience

Win Win Media Agency | Middle UX/UI Designer

Mar 2024 – PRESENT

- Designed responsive websites for multiple countries and regions, leading the full design process from wireframes to final UI in Figma.
- Collaborated with marketing teams to deliver SEO-informed user experiences.
- Supported team lead responsibilities by coordinating two designers, mentoring a freelance graphic designer, and managing cross-team communication.
- Maintained organized Design Systems and used AI tools to generate tailored visual content.
- Worked closely with developers to improve performance and user experience through regular design reviews.

Authentise | UX/UI Designer

Sep 2023 – Dec 2023 (Project work)

- Contributed to UX/UI improvements for a digital manufacturing platform.
- Supported the design of user flows, wireframes, and interface layouts.
- Improved the UX/UI integration system through redesigning screens to make the process more intuitive and efficient.

Leadsdoit | Middle Web Designer

May 2023 – Nov 2023

- Designed responsive, user-friendly websites and landing pages. Aligned with client goals, strong visuals, clear layout, and engaging UI.
- Applied design tools such as Figma and Adobe Suite to ensure visual consistency across digital experiences.
- Collaborated with the project managers to align design with business objectives and timelines.

Real Estate Agency Vertical | UX/UI Product Designer

Apr 2022 – Jan 2023

- Designed websites from scratch — from wireframes to final UI — with a strong focus on UX.
- Worked closely with the project managers, realtors, and stakeholders to gather requirements and align designs with user needs.
- Performed UX research, proposed new features, and iterated designs based on client feedback.
- Partnered with developers to review frontend implementation and resolve UX/UI issues.

LC Work / Login Casino UA | Junior Web Designer

Oct 2021 – Mar 2022

- Designed modern, responsive landing pages and marketing banners.
- Focused on usability and strong visuals using Figma, Photoshop, and Illustrator.
- Created web graphics and layouts aligned with brand identity.
- Collaborated with marketing teams to support campaign goals.

Freelance | UX/UI Designer

May 2021 – Oct 2021

- Worked independently with clients to provide UX/UI design services.
- Created wireframes, responsive UI, and landing pages tailored to client needs.
- Communicated directly with clients to clarify requirements and adjust designs based on feedback.
- Balanced studying design theory with applying new skills in real projects.
